

Forklift Electrical Parts

Forklift Electrical Parts - Forklifts can be specifically marked for use in dangerous locations. A labeled truck indicates the design has met the least requirements of ANSI/UL 558 for engine powered forklifts or ANSI/UL 583 used for electric lift trucks for the type of label placed.

Applications for marked forklifts can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance carrier and Fire Marshall for further information on the permitted uses of industrial powered forklifts in your application.

If the forklift has been found to meet the outlined standards, the following labels may be put. A marked truck would have the model designation located on the forklift nameplate and will have one of the following labels placed.
